

Neotys' NeoLoad Available for Purchase on Everest Technologies GSA Schedule

Easy-to-Use Load Testing Tool Now Offered for Government Web Applications

Boston— August 2, 2011 – [Neotys](#), a leader in easy-to-use, cost effective load testing tools for web applications, announced today that NeoLoad is now available for purchase through [Everest Technologies](#) GSA Schedule. Under the GSA Schedule Program, [government customers](#) can acquire a vast array of products and services directly from commercial suppliers.

[NeoLoad](#) is a load testing software solution for web and RIA applications. It realistically simulates user activity and analyzes server behavior to quickly identify performance bottlenecks. Government agencies, much like their commercial counterparts, have turned to the web to introduce innovative services delivered by a new breed of applications. NeoLoad is ideally suited to address the performance testing challenges these applications present enabling on-time deployment with confidence that performance goals will be met.

State, local and federal government agencies now all have a quick and easy way to acquire NeoLoad licenses configured for their specific requirements.

For Neotys ordering information, refer to Everest Technologies GSA Schedule:

Everest Technologies, Inc.
GSA Contract #: [GS-35F-0233U](#)
Ohio MBE: MBE-8747
(614) 436-3120
governmentsales@everesttech.com

According to Gerald Labie, CEO Neotys USA, “Everest Technologies and Neotys have worked together for many years and we are delighted to add this new service to our partnership. Everest has a proven track record of meeting the needs of the public sector, which makes them a perfect organization to hold NeoLoad on its GSA schedule. State, local, and federal agencies faced with the challenge of doing more with less, will find NeoLoad to be a perfect complement, as it provides increased testing productivity at an affordable cost.”

“Everest has used NeoLoad extensively for years in commercial and government settings and we have found it to be tremendously valuable for web application deployment,” said Bob Malik, vice president of Everest Technologies. “Adding NeoLoad to our GSA schedule is a great step for us and an easy way for the government to purchase this top notch solution.”
