

## **Neotys Announces Community Platform to Share Best Practices for Load and Performance Testing Web Applications**

### **Participants Can Ask Questions, Search Knowledgebase and Provide Feedback**

**Boston– November 1, 2011–** [Neotys](#), a leader in easy-to-use, cost effective load testing tools for web applications, today announced the [Neotys Community](#), a public platform to share ideas and best practices on load and performance testing.

Participants can ask questions, receive answers and provide feedback directly to Neotys' R&D team. The community also offers a searchable knowledge base that helps users quickly access tips, tricks and best practices regarding [load and performance testing web & mobile applications](#).

#### **Key features include:**

- Integrated interface for asking questions and providing answers
- Searchable knowledgebase for immediate access to technical information
- Customer proposal forum for suggesting and voting on enhancements for [NeoLoad](#), the company's web & mobile application load testing software solution.

The question and answer sharing posting section is open to the public. Neotys customers also have the ability to ask a question or provide feedback and ideas on NeoLoad, by logging in to the site using their customer credentials.

"The Neotys Community is a great communication forum for people who are interested in sharing experiences about load and performance testing web and mobile applications," said Benoit Derouet, CTO and cofounder of Neotys. "In addition, this thriving community compliments customer support because members can now learn from their peers and gain greater insight into how they addressed some of the very same testing challenges.

#### **About Neotys [www.neotys.com](http://www.neotys.com)**

Since 2005, Neotys has helped over 1,000 customers in more than 60 countries enhance the reliability, performance, and quality of their web and mobile applications.
